

Snowmass Cosmic Frontier Status and Plans

Mar 18, 2022

Marcelle Soares-Santos, Aaron Chou, Tim Tait

White Papers

- The community ramped up its activity level quite dramatically as the March 15 deadline approached — and passed.
- Most solicited white papers are now submitted; a few more are coming in this weekend.
- Grass-roots discussions are progressing too. For example:
 - Discussion about a portfolio of small experiments to complement big projects.
 - Dark matter complementarity discussions.
- Conveners are shepherding the remaining papers through and we have started reading the submissions to begin outlining our reports.
- We are also monitoring the discussions and will make sure to incorporate them in our reports as well.
- **We plan to look into Peskin's master list of White Papers next week to ensure that we don't miss any unsolicited submission (or any relevant submission that might have gone to a different frontier for whatever reason).**

Workshops

We are planning two frontier-wide workshops:

- **March 31, 12pm PT / 1pm MT / 2pm CT / 3pm ET**
- **April 5, 12pm PT / 1pm MT / 2pm CT / 3pm ET**

Agenda and connection info: <https://indico.fnal.gov/event/53656/>

Would like to have participation from other frontiers ... but how to share zoom link? Cf. CPM registration required.

Also thinking about hybrid workshop in May, but national labs are currently limited to 50 in-person participants.

Virtual 2-hour Workshops

March 31

12pm PT / 1pm MT / 2pm CT / 3pm ET

Brief Introduction (Aaron, Marcelle, Tim): 5 min

CF1: 15+10 minutes

CF2: 15+10 minutes

CF6: 15+10 minutes

Open discussion, Q&A: 40 minutes

April 5

12pm PT / 1pm MT / 2pm CT / 3pm ET

Brief Introduction (Aaron, Marcelle, Tim): 5 min

CF7: 15+10 minutes

CF3: 15+10 minutes

CF4: 15+10 minutes

CF5: 15+10 minutes

Open discussion, Q&A: 15 minutes
