

Why Neutrino @ Valencia?

IFIC is one of the oldest Spanish institutes in Experimental Physics (1950) and **the first studying particle and nuclear physics**

Now devoted to research in Nuclear, **Particle** and **Astroparticle Physics**, and applications to Medical Physics (personnel ~250)

One of the leading centres in **neutrino physics** in Europe

Neutrino groups @IFIC: **theory** (pheno & cosmo), **KM3NeT**, **T2K**, **NEXT**, **DUNE**...

Experimental and **Theoretical** invited speakers from IFIC at every Neutrino conference since 1998 (at least): **Michel Sorel** & **Olga Mena** @Nu2022

Experience in **hosting large international events**, including **ICHEP 2014** (1,100 participants) and **TAUP 2021** (online)

Bid to organize **Neutrino 2024**

Neutrino held only once in Spain (**Granada 1992**)
