Hi Jingbo,

I'm attaching specifications for our DD108 and DD109. We are updating the DD108 to have a smaller volume generator head, and can send those specifications when we finish them. Our lead time is typically 4 months for these, but currently one can expect about 5 months. The DD108 costs \$110,000 and the DD109 \$178,000. We can offer a 10% discount on the DD109 if you make a 50% down payment on order.

Please let me know if you have any other questions or have other requirements.

Best regards,  
Charles

Hello,

I am looking around for a DD generator. The DD108 and DD109 products seem to be a good fit for my needs. Can I request a quote with the lead time for both models? Thank you!

Best,  
Jingbo
