Workshop Plans

- Lots of working **time** and **space**
 - **Time:** Planning to run ~2 hrs of talks each morning, but devote the majority of the workshop to getting stuff donetm
 - **Space:** We have 3 or 4 small working rooms and one large seminar room booked for the week. Lots of space to spread out into groups hacking on specific problems
- Plan to have short tutorials/introductions from analysis groups on their capabilities/tools in the mornings
- Plan to break out into workshop subgroups separated by interfaces/problems, *e.g.:*
 - Detector Systematic Motivation
 - Detector Systematic Implementation
 - Interaction Systematics Motivation
 - Sample Selection
 - Oscillation Fitter
 - ...
