

# **Medical Device Sterilization 2022: From Possibilities to Practice**

## **Wednesday, 21 September 2022**

**Presentation: TIR-104: A Case Study (09:30 - 10:00)**

-Conveners: James McCoy

**Presentation: Sterilization Conversions (10:15 - 10:45)**

-Conveners: Mark Bogs

# Thursday, 22 September 2022

**Presentation: A Practical Approach to Establishing a 2x Process for E-Beam Sterilization of Medical Devices (08:40 - 09:10)**

**-Conveners: Eric Crawley**

# Friday, 23 September 2022

**Presentation: Monte Carlo Simulation benefits to Healthcare Product Manufacturers in radiation processing (08:40 - 09:10)**

-Conveners: Ludovic Eychenne; Samuel Dorey

**Presentation: Design for Sterilization: Harnessing the Power of Virtual Dose Mapping Tools (09:10 - 09:40)**

-Conveners: Daniel Badali

**Presentation: Team Nablo Latest Developments – Polymer Effects Testing and PUFFIn Software Package (10:00 - 10:30)**

-Conveners: Randy Schwarz; Leo Fifield
