

# Closing Remarks

**Pedro Ochoa-Ricoux and Callum Wilkinson**

*2x2 Analysis Workshop*

University of Bern, January 2023

# Closing Remarks

- We spent a very pleasant and productive three days
- Lots of work ahead of us
  - Pressing timeline
  - Manpower is in short supply, so we have to work efficiently and consistently
  - Plenty of room for others to get involved
- We will continue some of the discussions that we started today during the upcoming collaboration meeting and in future meetings

# Closing Remarks

- We would like to thank our wonderful hosts at the University of Bern for all their hard work
- Should we have a similar workshop before the next collaboration meeting?
- Don't have to decide now but would like to hear your feedback

*Thank you all for coming!*
