Summer Internship in Science and Technology (SIST) 2023

Application Period : October 27, 2022 – January 23, 2023

Program dates : May 22, 2023 – August 11, 2023

https://internships.fnal.gov/summer-internships-in-science-and-technology-sist/

Underrepresented minorities in STEM and women are strongly encouraged to apply

SIST Program - Some highlights

- The Fermilab SIST program is the longest operating internship program in the DOE laboratory System (established in 1970).

- The program goal is to increase the representation of under-represented groups and women in STEM

- Over 200 applicants each year

- Program Participants are undergraduates

- Students work on lab research and projects with expert supervision

- We provided mentorship groups

- Lecture series on a full range of Fermilab research topics

- Workshop on graduate school admissions

- Tours
