

Hi!, my main interest are

1 | Government Relations

- Back in 2019 I attend the DC Trip.
- A fruitful and eye-opening experience, workout politics + science is complex and so important.
- I felt persuaded to not just lobbying but be part or the organization itself.
- An evolving political landscape ahead.

2 | Education and Public Engagement

- Resuming Intensity Frontier, NPC and USA-India Fellowships.
- Instantly took my attention, throughout my career I have benefited from various programs.
- I being in touch with some Fermi scientists who are or used to be on charge of this kind of programs,

Quality of Life Diversity & Inclusion Users Meeting

- Important topics, in general happy to help with any outgoing activity.
- Back in 2019 I collaborate in EDI activities and Early Career talks by guest speakers.
