2023 update of ε_K with lattice QCD inputs

Tuesday, 1 August 2023 18:16 (3 minutes)

We present recent progress in evaluating ε_K , the indirect CP violation parameter in the neutral kaon system, calculated using lattice QCD inputs directly from the standard model.

Topical area

Quark and Lepton Flavor Physics

Primary authors: LEEM, Jaehoon (Samsung Electronics); Mr KIM, Sunghee (Seoul National University); LEE, Weonjong (Seoul National University); PARK, Sungwoo (Los Alamos National Laboratory); LEE, Sunkyu (Seoul National University); Dr JANG, Yong-Chull (Brookhaven National Laboratory)

Presenter: LEE, Weonjong (Seoul National University)

Session Classification: Poster session
