Operator mixing and non-perturbative running of $\Delta F=2$ four-fermion operators

Thursday, 3 August 2023 17:40 (20 minutes)

We compute non perturbatively the RG running of the complete basis of $\Delta F = 2$ four fermion operators in the chirally rotated Schrödinger Functional in the region of energies between the W mass and the switching scale (4GeV).

Topical area

Particle Physics Beyond the Standard Model

Primary author: MARINELLI, Riccardo (“Sapienza” university of Rome)

Co-authors: Prof. VLADIKAS, Anastassios (INFN Tor Vergata, Rome); Dr DE DIVITIIS, Giulia (Università di Tor Vergata); Dr DALLA BRIDA, Mattia (CERN); Ms PIRELLI, Ludovica (Università di Tor Vergata); Dr LYTTLE, Andrew (Illinois University at Urbana); PAPANUTTO, Mauro Lucio (“La Sapienza” university of Rome)

Presenter: MARINELLI, Riccardo (“Sapienza” university of Rome)

Session Classification: Quark and Lepton Flavor Physics
