

# SP PHOTON DETECTION CONSORTIUM

JANUARY 17, 2023

# *PD-HD mini-workshop*

- The PD-HD mini-workshop was held at UNICAMP on November 14, 15 and 16 (<https://indico.fnal.gov/event/57171/timetable/?view=standard>);
- It was an excellent opportunity to review the lesson learned from protoDUNE:
  - Module mechanics, assembly and installation
  - Cold electronics, SiPM and signal lead boards
  - DAPHNE
  - Monitoring system
- We started planning the HD Final design review (14-15 of February)
- Started a careful and detailed QA/QC planning and made assignments for the production of the documents for the FDR (coordinated by G. Valdiviesso)
- You can find the recordings of the meeting here:  
<https://drive.google.com/drive/folders/1UY625Dx4m7z2GbfXtxDNBfvlfDQ0QKPj?usp=sharing>

# Collaboration Meeting

- Next Collaboration Meeting will be from January 23<sup>rd</sup> to January 27<sup>th</sup> at CERN

<https://indico.fnal.gov/event/53965/timetable/?view=standard>

- We will have three parallel sessions:
  - General PD-HD session (Convener F. Terranova)  
*Tuesday 24<sup>th</sup> at 3:00 PM;*
  - General PD-VD session (Conveners R. Rivera, F. Cavanna) *Wednesday 25<sup>th</sup> at noon;*
  - Physics and Simulation (Convener L. Paulucci)  
Thursday 26<sup>th</sup> at 3:00 PM

# *Today meeting*

- Updates from Tech. Coordination (D. Warner)
- Status and plans for DAPHNE (Manuel, Deywis)
- PD-VD updates (Ryan)
