

- ❑ **SPS & RHIC energies:** Quarkonia suppression via **colour screening**
→ probe of **deconfinement** (Matsui and Satz, PLB 178 (1986) 416)
- ❑ **LHC energies :** **Enhancement** via **(re)generation** of quarkonia, due to the large heavy-quark multiplicity (A. Andronic et al.; PLB 571(2003) 36)
