NuMI: 9AM Meeting

- Tue Feb 28th: Started beam to NuMI: elog234458 & elog234467

  – It has been a marathon and a sprint to reach this point

  – All the work has been very impressive

  – Thanks to TSD, EE Support, Instrumentation, MSD, Safety, Ops, MI, Booster, machine shop, and whoever else I am forgetting

- Tue Feb 28th to Thu Mar 2nd: Oscillations in target RAW skid: elog234468, elog234519, elog234528, elog234553, elog234559, elog234587, & elog234608

  – Temperature fluctuations occurring because of low beam power

  – Experts can elaborate

  – Thanks to TSD, MSD, MI, & Ops
