

# New Perspectives 2023

## Tuesday, 27 June 2023

### Fixed target, SpinQuest, and SeaQuest - One West (07:55 - 08:45)

time	[id] title	presenter
08:00	[42] Iterative Unfolding of the Angular Distribution of Drell--Yan Production in p+Fe Interactions at 120 GeV Beam Energy	HOSSAIN, Md Forhad
08:15	[44] Estimation of Combinatoric Background in SeaQuest using an Event-Mixing Method	PUN, Abinash
08:30	[48] Extraction of Drell-Yan Angular Coefficients using Neural Network-based Classifiers	Mr NAWARATHNE, Dinupa
