

News (1)

- P5 townhall at SLAC next week:
 - <https://indico.slac.stanford.edu/event/7992/>
 - Wednesday morning and afternoon:

Accelerator Frontier Summary	<i>Stephen Gourlay</i>
SLAC	09:00 - 09:30

FNAL Accelerator Complex	<i>Mary Convery</i>
SLAC	09:30 - 10:00

Muon Collider	<i>Diktys Stratakis</i>
SLAC	13:45 - 14:10

Magnets for Energy Frontier Collider	<i>Soren Prestemon</i>
SLAC	14:10 - 14:35

News (2)

- P5 townhall at SLAC next week:
 - <https://indico.slac.stanford.edu/event/7992/>
- Significant enthusiasm and many questions from P5 members at BNL. Feel like we need to clarify some points, specifically:
 - (a) Synergy with Fermilab Accelerator Complex Evolution (ACE) with the demo and potentially final facility
 - (b) R&D motivation and deliverables, overall timeline
- Point (a) will be partially addressed by Diktys and Mary Convery, but more to come in the ACE Physics workshop (tba) in mid June
- For (b) we suggest writing a short document ~5-10 pages, summarizing the needs. Would like to include both accelerator + detector R&D needs and timeline and submit it to P5 by late May. May be also useful for DOE and Fermilab leadership (will discuss with them)

News (3)

- IMCC Annual Meeting in Orsay + Synergy Workshop
- <https://indico.cern.ch/event/1250075/>
- For today:
 - (1) Discussion of the R&D document for P5 – Sridhara
 - (2) New INFN funding – Donatella
 - (3) Accelerator ask – Diktys/Sergo
