 - Probably earlier...

Remote conferencing / streaming

- Video:
 - ECS 75372213 (75ESCC13)
 - GDS 001134975372213
 - SIP 75372213@es.net
 - H323 (URI) 75372213@es.net

- ReadyTalk (audio only):
 - Dial 1-866-740-1260 (US) access code: 8404516

- ReadyTalk (slides)
 - Enter <https://esnet.readytalk.com>
 - select "Join a Meeting"
 - Use access code: 8404516

- Need everyone's slide in Indico to make this work...

Efforts in Organizing this Meeting

- Used ad hoc programming group to create agenda:
 - Vince Dattoria
 - Lauren Rottman
 - Scott Bradley
 - Susan Hicks
 - Antonio Ceseracciu
 - Paul Martinez
- 3 One hour telecons to pull things together
- Pulled together one major technical focus area:
 - Science Data Movement Security Architecture Options
 - Scott B & Susan H volunteered to organize (thanks...)
 - Vendor participation has proven to be “challenging”
- Will review & discuss future meeting organization in Friday afternoon agenda item

Upcoming ESCC meetings

- More meeting changes afoot:
 - Summer 2013 meeting definitely at LBL, July 18-19 (Thurs/Fri)
 - Winter 2014 meeting location up in air now...
- Internet2 seeking “fast & frugal” workshop aligned with upcoming summer ESCC:
 - Inder M. & Brian T. are part of organizing committee
 - Prudent to provide input into topic area & format
 - May complicate travel plans for those wanting to attend
- Will discuss meeting schedule & agenda Friday afternoon

Misc Stuff:

- General feedback on how travel approval process worked for this meeting?
 - Expect to try and get summer meeting classified as “operational” to avoid problems
- No meeting dinner planned for tonight
 - Will arrange a large party reservation if there’s enough interest

It's Back! The ESCC Satisfaction Survey...

- Generally, a repeat of previous years' surveys
- Two parts:
 - ESnet / Site network-level interactions
 - Added question on ESnet4/ESnet5 migration
 - Higher-level services & perspectives
 - Dropped question on DOEgrid CA service
- Site identification w/ survey ratings anonymity
- Similar process as previous years
 - Use SurveyMonkey to conduct the survey
 - Target distribution ~Feb 1, with 10 days to respond

ESCC Satisfaction Survey (II)...

- Is repeating the same survey with minor modifications the right way to go?
 - Alternative ideas?
- Any additional new areas that should be covered?
 - Proposing to add survey rating item on ESnet4 → ESnet5 transition
 - Also proposing to drop rating DOEgrids CA service, since service is going to be dropped in a few months
- Is the two-level survey (site/ESnet interactions & higher-level services) still appropriate?
- How can or should the process be improved?
