

PHOTON DETECTION CONSORTIUM MEETING

September 5th, 2023

Collaboration meeting

- We will have the general CM on the week of 25-29 of September in Colombia;
- Need to ask for parallel sessions;
- At last CM we had:
 - General Consortium Session
 - PDS analysis and simulation
 - Photon Collection
 - Cold and warm electronics

LBNC comments to TDR

- We received an additional comment about the performance of the PDS for FD1;
- Several people involved in producing an answer which will be sent probably today to LBNC by B. Wilson.

Today meeting

- Updates on Megacell test in Naples (F. Di Capua) ;
- Updates on photon flux simulation (G. Valdiviesso)
- PTP adherence studies (MC. Bazetto)
