

# Updates from Ferrara

Marco Guarise

University of Ferrara and INFN

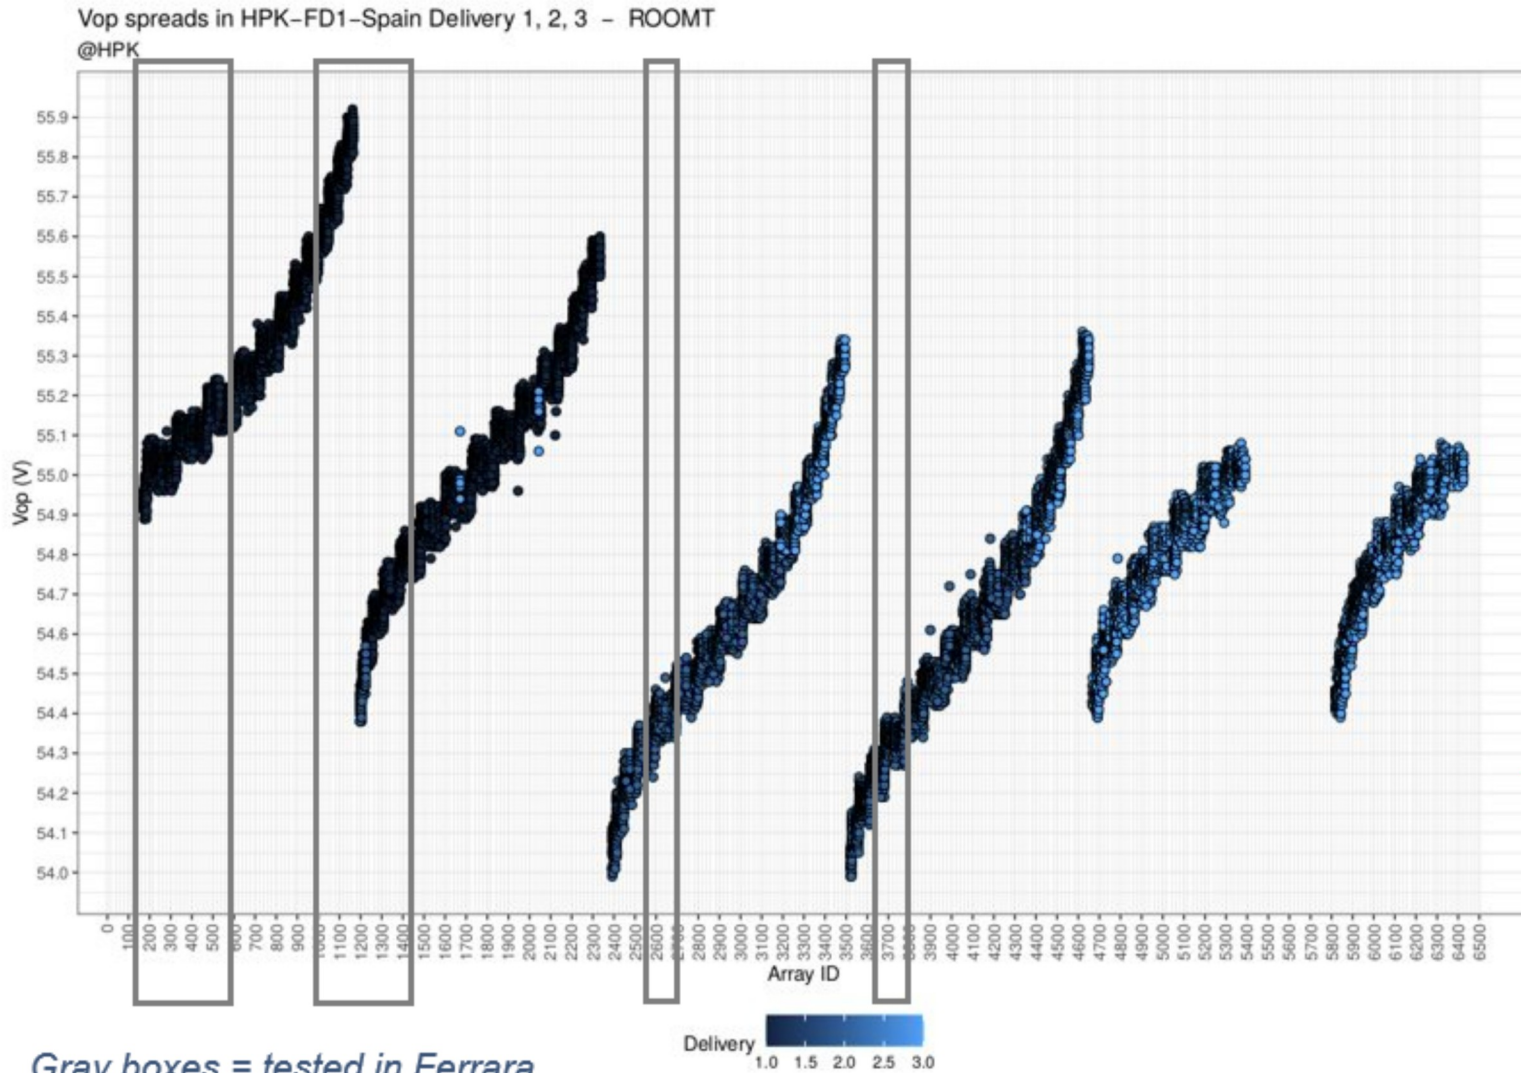

19/09/2023

# First tests in Ferrara: batch FER01

- 3<sup>rd</sup> box under tests
- New LN2 order ongoing (few weeks needed)

# From HPK data (only at room T)

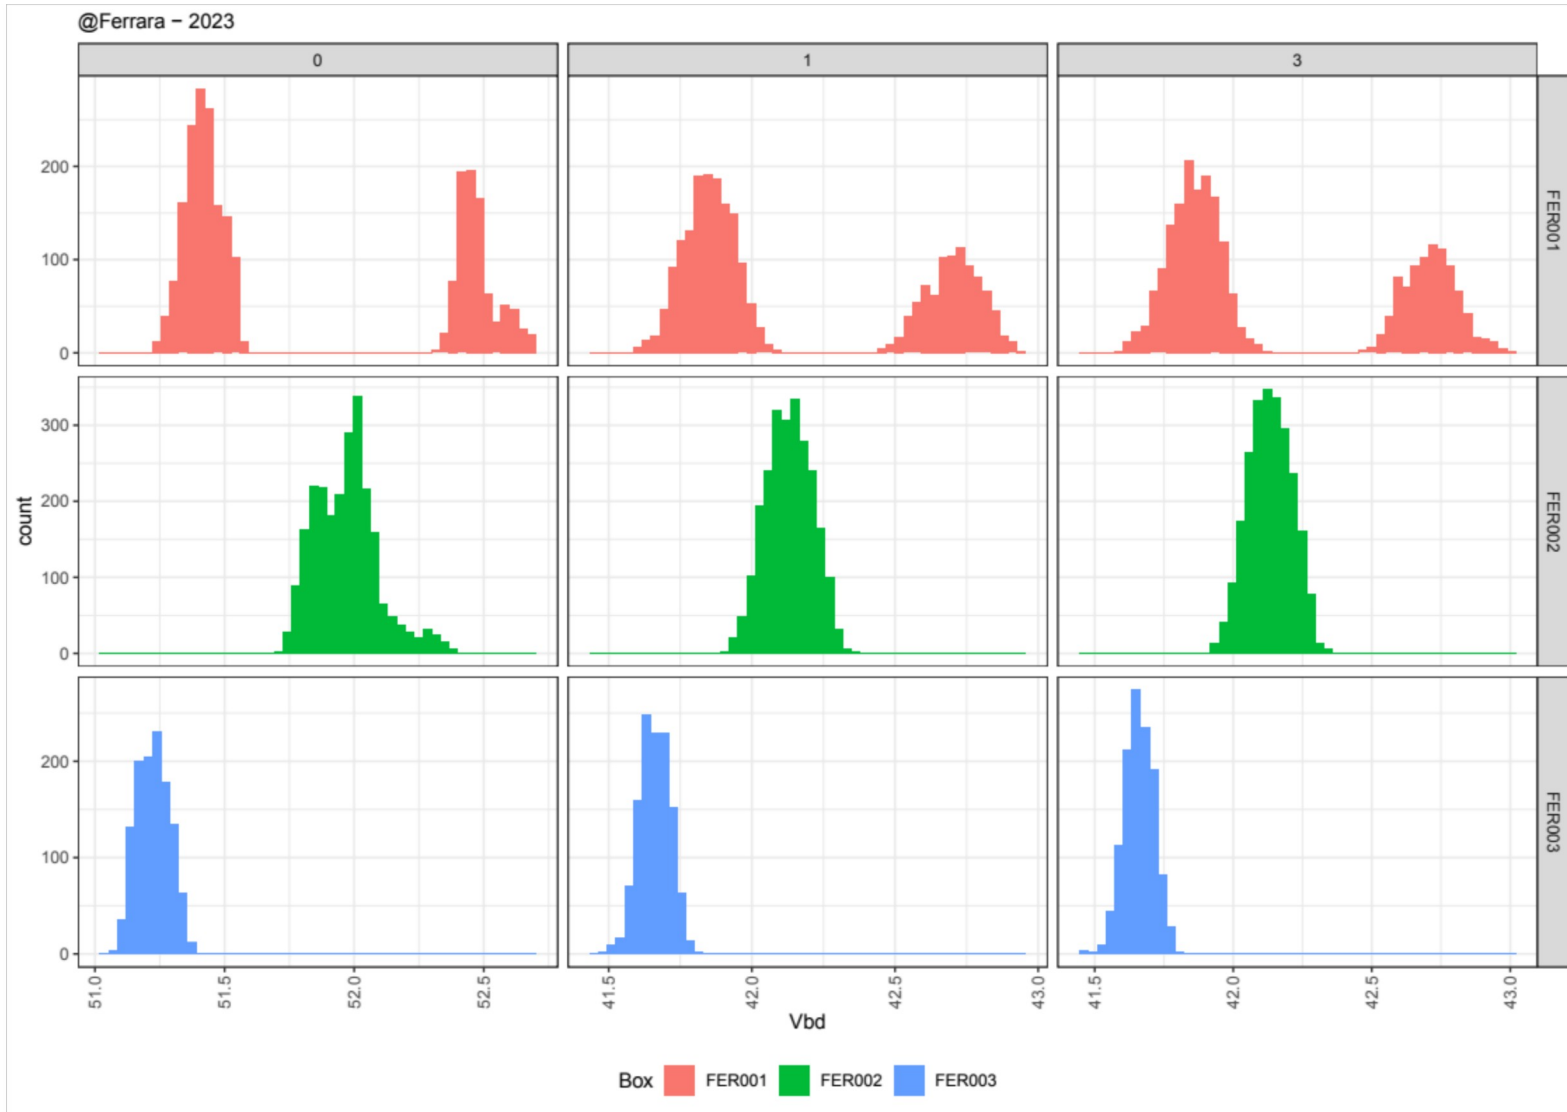

# Our measurement at room T

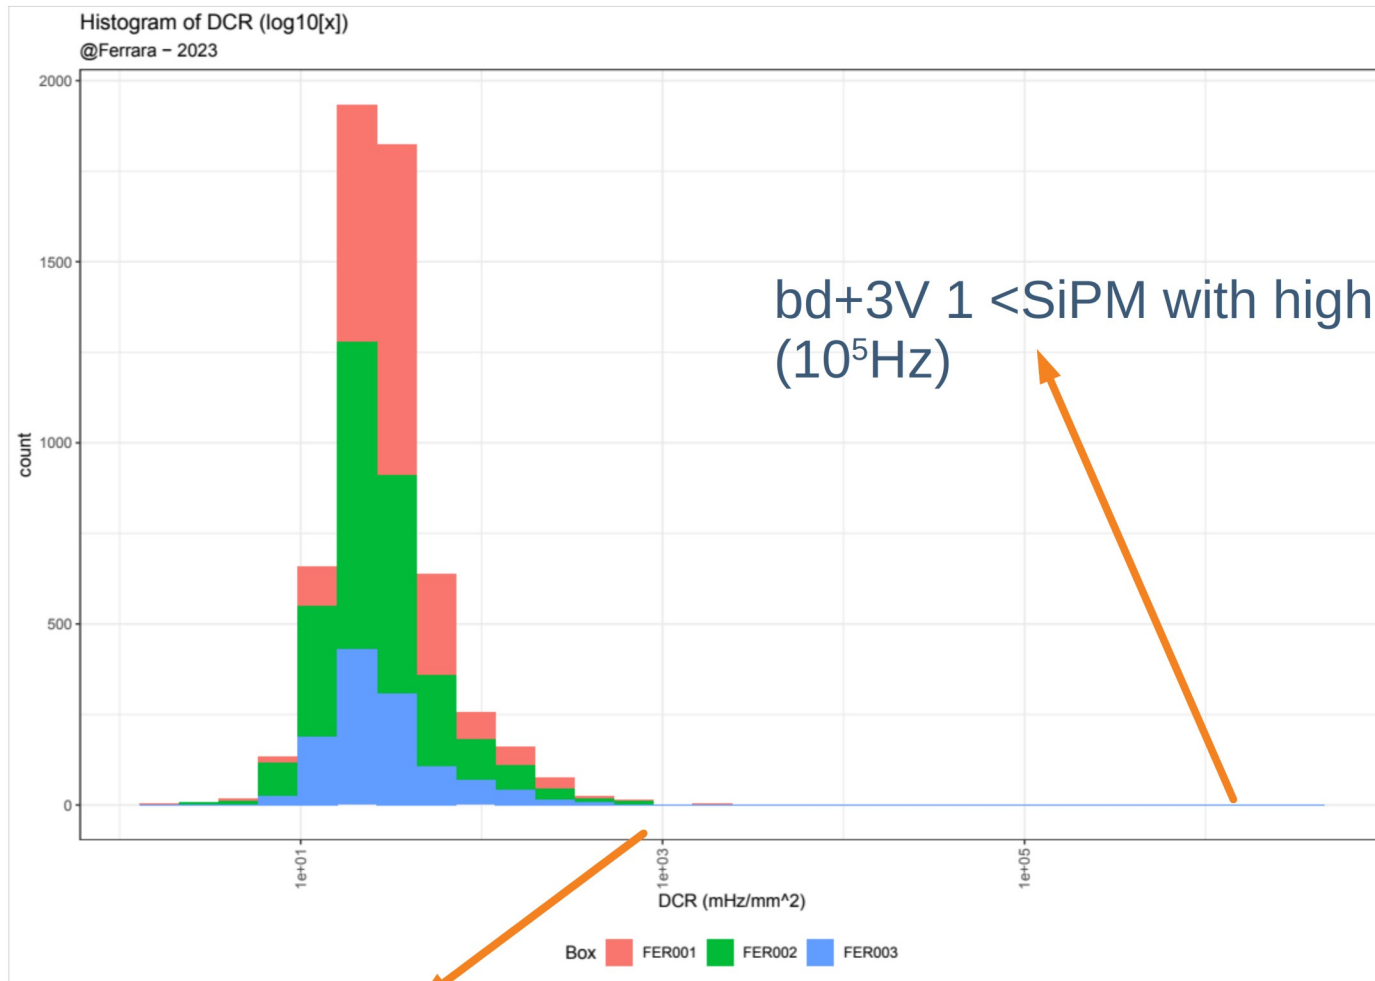

Keep in mind that:

- Room T is not extremely constant in the lab (it depends on morning-evening, rainy-sunny day, ...);
- Our room T is not the same room T as other labs and the same as HPK lab
- $V_{op} = V_{bd} + 3V$

# Our measurement

# Our measurement

# Conclusions

## Summary:

- Good agreement with HPK data;
- 1 fail SiPM found
- CACTUS Prague has been shipped
- Organizing visit in Prague
