

# US LUA

## 2023 Annual Meeting

December 12–15

Fermilab, Batavia, Illinois

The US LHC Users Association represents the US community of scientists and engineers working in the LHC physics and accelerator programs, and provides a forum of support for, and discussion of, US participation at CERN. We aim to support and uplift US personnel — particularly early-career scientists and engineers — as well as acting as a communications channel between the community, US agencies, and the Congressional and Executive Branches.

### Local Organizing Committee

Lothar Bauerdick (Fermilab)  
Kevin Black (Wisconsin)  
Joel Butler (Fermilab)  
Anadi Canepa (Fermilab)  
Frank Chlebana (Fermilab)  
Bo Jayatilaka (Fermilab)  
Kaori Maeshima (Fermilab)  
David Yu (Nebraska)  
Terry Grozis (Fermilab)  
Terry Read (Fermilab)  
Carrie Farver (Fermilab)  
Frankie Kelly (Fermilab)

### US LUA Meeting Organizers

Steve Goldfarb (Melbourne)  
Julia Gonski (SLAC)  
Phil Iiten (Cincinnati)  
Kiley Kennedy (Princeton)  
Kaori Maeshima (Fermilab)  
Harvey Newman (Caltech)  
David Saltzberg (UCLA)  
John Stupak (Oklahoma)  
Indara Suarez (Boston)  
Daniel Takaki (Kansas)  
Caterina Vernieri (SLAC)

**Register today!**

<https://indico.fnal.gov/event/61746/>

Limited travel support from the URA is available for early career participants.

The US LUA Executive Committee and the Local Organizing Committee gratefully acknowledge the support received from the Universities Research Association (URA) and Fermi Research Alliance (FRA) for this event.
