Mentions Trend

The aggregate trend of mention activity across sources. The total and average volume of mentions per day and the percentage change compared to the previous period.

AI spike insights appear when there is a statistically significant shift in news and social media conversations. Spikes must have at least 25 mentions and the trend must have at least 7 data points.

AI-Powered Clusters

Clusters are created by clustering articles and social posts based on content similarity using Meltwater's proprietary AI. Clusters can consist of news articles, blog posts, Tweets, and Reddit content.

Clusters	Mentions
1  Particle physicists in the U.S. have released a long-range plan that looks less like a child's wish list and more than a parent's cautious budget.	10
2  The proposed muon collider would harness the power of muons, particles more massive than electrons, to delve deeper into the unknown territories of particle physics.	7
3  Road Map for U.S. Particle Physics Wins Broad Approval	3
4  Report on future of particle physics outlines exciting scientific priorities	3
5  Particle physicists offer a road map for the next decade	2
6  Particle Physicists Offer a Road Map for the Next Decade (nytimes.com) 42	1
7  Particle Physicists Offer a Road Map for the Next Decade	1
