Support:

ICTP-SAIFR is going to provide support to a certain number of students (20 to 30). This will include lodging and per diems. We will consider waving registration fee (or a discount) on a case by case basis.

There will be funds to give some support to speakers. We have secured support from CAPES and are still waiting decision from CNPq and FAPESP. Money from funding agencies come with strings what may limit its use.

Pre NUINT workshop:

We need a decision on this
