

## Unreviewed Safety Issue (USI) Screening Form Discovered Condition

Title		USI Report #S [to be provided by ESH once Form submitted]
Discovered Condition. Provide date of discovery, description of issue, situation, and/or condition that has either not been previously analyzed or is outside of the scope of analysis.		
<ol> <li>JSI Screening Questions [For each question below, select yes or no. If there is any uncertainty, select yes.]</li> <li>yes  no Has the facility or surrounding soil been affected?</li> <li>yes  no Has any movable shielding (i.e., shieling blocks, penetration shielding) been</li> </ol>		
affecte	affected?	
4. □ yes □ no Have co	Has fencing been affected?  Have components of the Radiation Safety Interlock System, including radiation monitors (i.e., chipmunks, TLMs) been affected?	
5.	Have components of the ODH Safety System been affected?	
1 1 1	Have operation authorization documents (i.e., Beam Permits & Running Condition) been affected beyond an editorial change?	
7. uges uno Has acc	Has accelerator operator staffing been affected?	
l - I	Have operational parameters (e.g., energy, intensity, cycle time, etc.) been affected?	
9. uges no Has an	Has an increased volume of cryogens been introduced?	
	Has a new high beam loss device (e.g., target, collimator, absorber, injector/extractor/bending magnet) been introduced?	
11. □ yes □ no Has a h	Has a hazard been introduced or will risk be increased?	
1 1 1	Have documents (i.e., procedures, operation authorization documents, etc.) related to accelerator operation been updated and/or modified?	
USI Screening Determination		
The discovered condition: [select one]		IS NOT a USI, activity may commence [all ?s answered "no"] shall be evaluated for a USI [any ? answered "yes"] If checked, affected operations shall be STOPPED
Screener [Name, Fermilab ID # & Date]		Machine Owner [Name, Fermilab ID # & Date]  rms to the ES&H Division Accelerator

Safety Department for appropriate records retention and notifications.
