Jan 16, 2024

Education Public Engagement Subcommittee

Barbara Yaeggy

Adam Lyon

Set up meetings with:

- Rebecca Thompson
(last week)
Head of Education and Public Outreach
- Sandra Charles
(next week)
Chief Equity, Diversity, Inclusion and Accessibility Officer

Takeaways after meeting with Becky:

- 1) Saturday morning physics (monthly)
- 2) Public Tour - Monday (MCR & WH) starting on February 19th.
 - *They require people to monitor questions (hybrid), logistics/entrance, conduct field trips, promote the events.*
 - *Volunteers who will be responsible for monitoring the public on the tours need to pass a one-time background check that includes fingerprinting.*
 - *Tours previously needed a ratio of 1 "minder" to 20 members of the public. That ratio is now 1 to 10, and so Becky will need more volunteers.*

Next steps:

- Be assisting both activities on any need that show up.
- Get a poll of names/people that can volunteer based on the requirements in place.
- Looking forward to meet with Sandra Charles

New activity on the making

Adam brought to the table the re-start of a previous activity at the lab:

Basically, you pick a host (scientist) to give a soft talk for the general public, meeting at a restaurant/pub (outside the lab).

THANKS!
