

# IF Mini Workshop

January 17<sup>th</sup> 2024  
WH5SW

# Meeting goals

- Readiness of mu2e, DUNE, ICARUS and SBND for early data processing using CSAID common tools: POMS, MetaCat, DataDispatcher, Rucio, dCache
- Status and plans for migration off of SAM toward MetaCat+DataDispatcher
- Processing using resources beyond local Fermigrid cluster (NERSC, Argonne, Oak Ridge supercomputers)
- Schemes for resolving duplicate files and missing files in multisite processing
- Integration of Rucio
- Longer term support of Metacat+DataDispatcher from CSAID

# Agenda

- 9:00-9:15 Intro (Brian)
- 9:15-10:00 DUNE (Steve Timm)
- 10:00-11:00  $\mu 2e$  (Ray Culbertson)
- 11:00-11:30 ICARUS + SBN (G Cerati, S Gardiner)
- 11:30-1pm General Discussion
