

2024 NuFact closeout

Sponsors

We thank all our NuFact 2024 sponsors:

Northwestern
Department of
Physics and Astronomy

Sponsor funds were primarily used to support student participation in NuFact 2024

Proceedings

- There will be a voluntary **online** proceedings.
 - Plenary contributions can be up to six pages. Parallel/poster contributions can be up to four pages. This will be a two-step process for parallel contributions, which will be lightly reviewed. First, send to nufact2024@gmail.com. will review contributions and make suggestions.
 - Plenary contributions, and parallel contributions which have been modified (if necessary) after review, should be posted on the arXiv, and the arXiv number should be reported to us. Then they will be linked from this workshop page, as soon as they are available. Titles should be followed by "Contribution to the 25th International Workshop on Neutrinos from Accelerators". The format should be .pdf. Authors should be "name – for the ABC collaboration."
- < **15 October 2024**: Notify us intent to write one.
- < **13 December 2024**: Submit proceedings to nufact2024
- < **31 December 2024**: We will lightly review proceedings for clarity and notify authors.
- < **31 January 2025**: Authors post proceedings on arXiv: and we will provide a link on the Nufact 2024 proceedings page.
- Please keep these dates in mind while going through any collaboration approval process.

Nufact path forward

Guangzhou or Shanghai (2026)

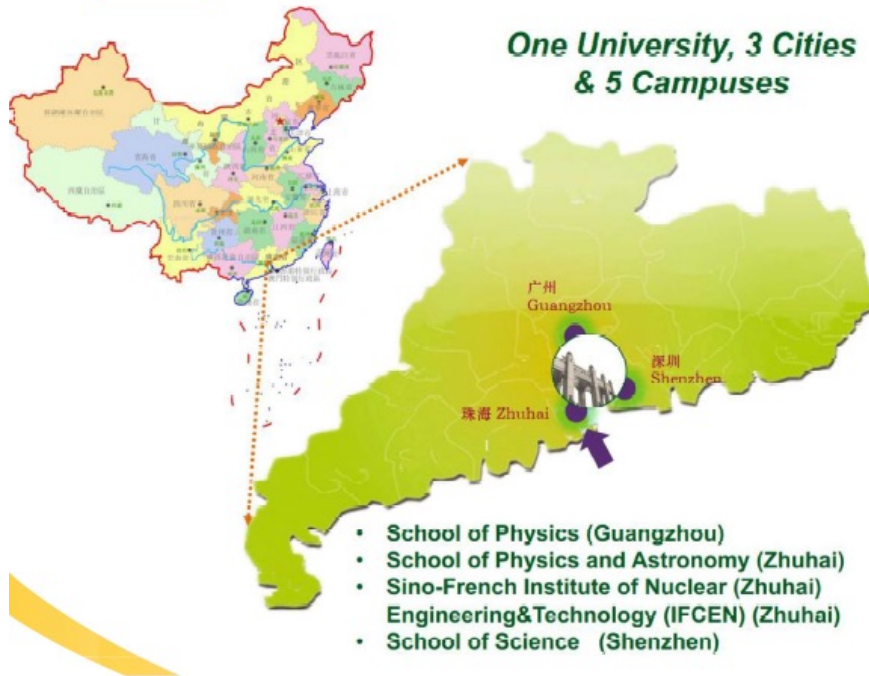

Liverpool (31 Aug – 6 Sep 2025)

Sun Yat Sen University

A strong HEP team in SYSU

- More than 30 faculty members working on HEP-related areas: Th+Ph+Ex.
- One of the largest university teams on neutrino physics: Daya Bay, JUNO, DUNE, MOMENT, JNE, PandaX...
- Collider physics: ATLAS, CMS, BESIII...
- Muon physics: COMET, Mu2e, MACE...
- Astroparticle physics: AMS, LHAASO, HERD, HUNT...

Shanghai Jiao Tong University

Shanghai, China

李达道研究所
TSUNG-DAO LEE INSTITUTE

SJTUPA
上海交通大学物理与天文学院

Shanghai (上海) - Financial Center and Transportation Hub of China

- 6,341 km² (2,448 sq mi), ~ 25 million permanent residents
- Two international airports (Pudong, Hongqiao)
- Three major high-speed railway stations, 831-km long metro network (world #2)
- Affordable RideShare (Didi, Meituan), cost = 0.4 USD/km

Special Thanks to the Tel Aviv Group

- Thanks and acknowledgement of the difficulties of the Tel Aviv group led by Adi Ashkenazi.
- Tel Aviv was chosen for Nufact 2024. After the October 2023 Hamas attack, it was decided to switch 24↔25 with ANL.
- Due to continued strife, they recently decided they could not guarantee safety in 2025.
- Adi's help for Nufact 2024 in a shortened amount of time is gratefully acknowledged, and we all hope for an expeditious end to the turmoil for all.

Feedback

- Comments about what went well and what could be better are welcomed
- Email nufact2024loc@lists.anl.gov

Hello and Goodbye
