

News

- Two upcoming workshops
 - CERN: March 26-27
 - Virginia Tech: April 14-15
 - <http://cnp.phys.vt.edu/meetings/nuSTORM2013.html>
- We have managed to find funds to start work on the Project Definition Report (PDR)
 - Done by Facilities Engineering Services Section (FESS)
 - Primarily concerned with civil construction, but goes a long way in defining project scope

PDR

- Consists of:
 - Primary proton beam line
 - Includes MI extraction line
 - Target Station
 - Pion capture and transport line
 - Decay ring
 - Hall for near detector(s)
 - Retrofit of D0 assembly building (DAB) to accommodate SuperBIND and 1kT of LAr
