

# NOvA Operations (March 2024)

Proton PMG/ All Experimenter's Meeting

Travis Olson, Josh Barrow

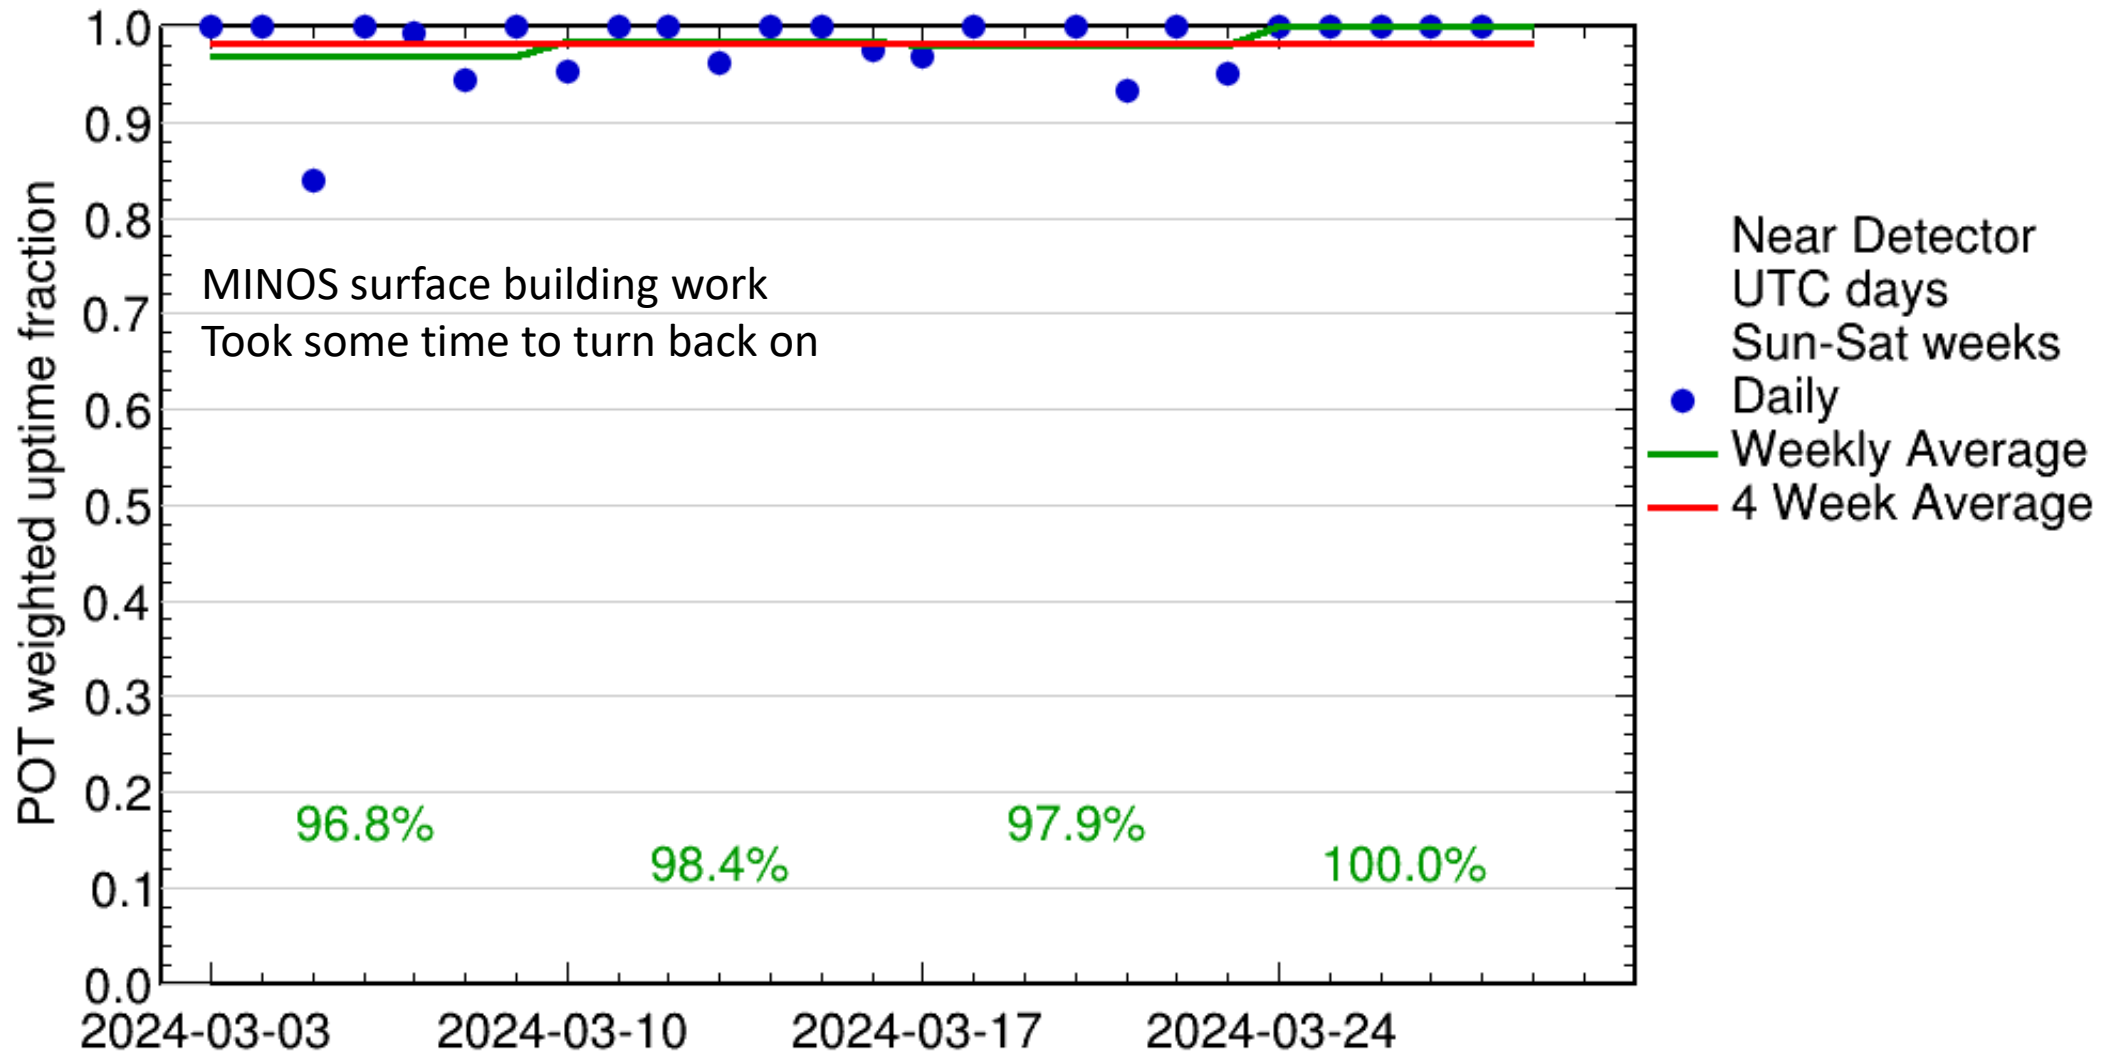

April 4 2024

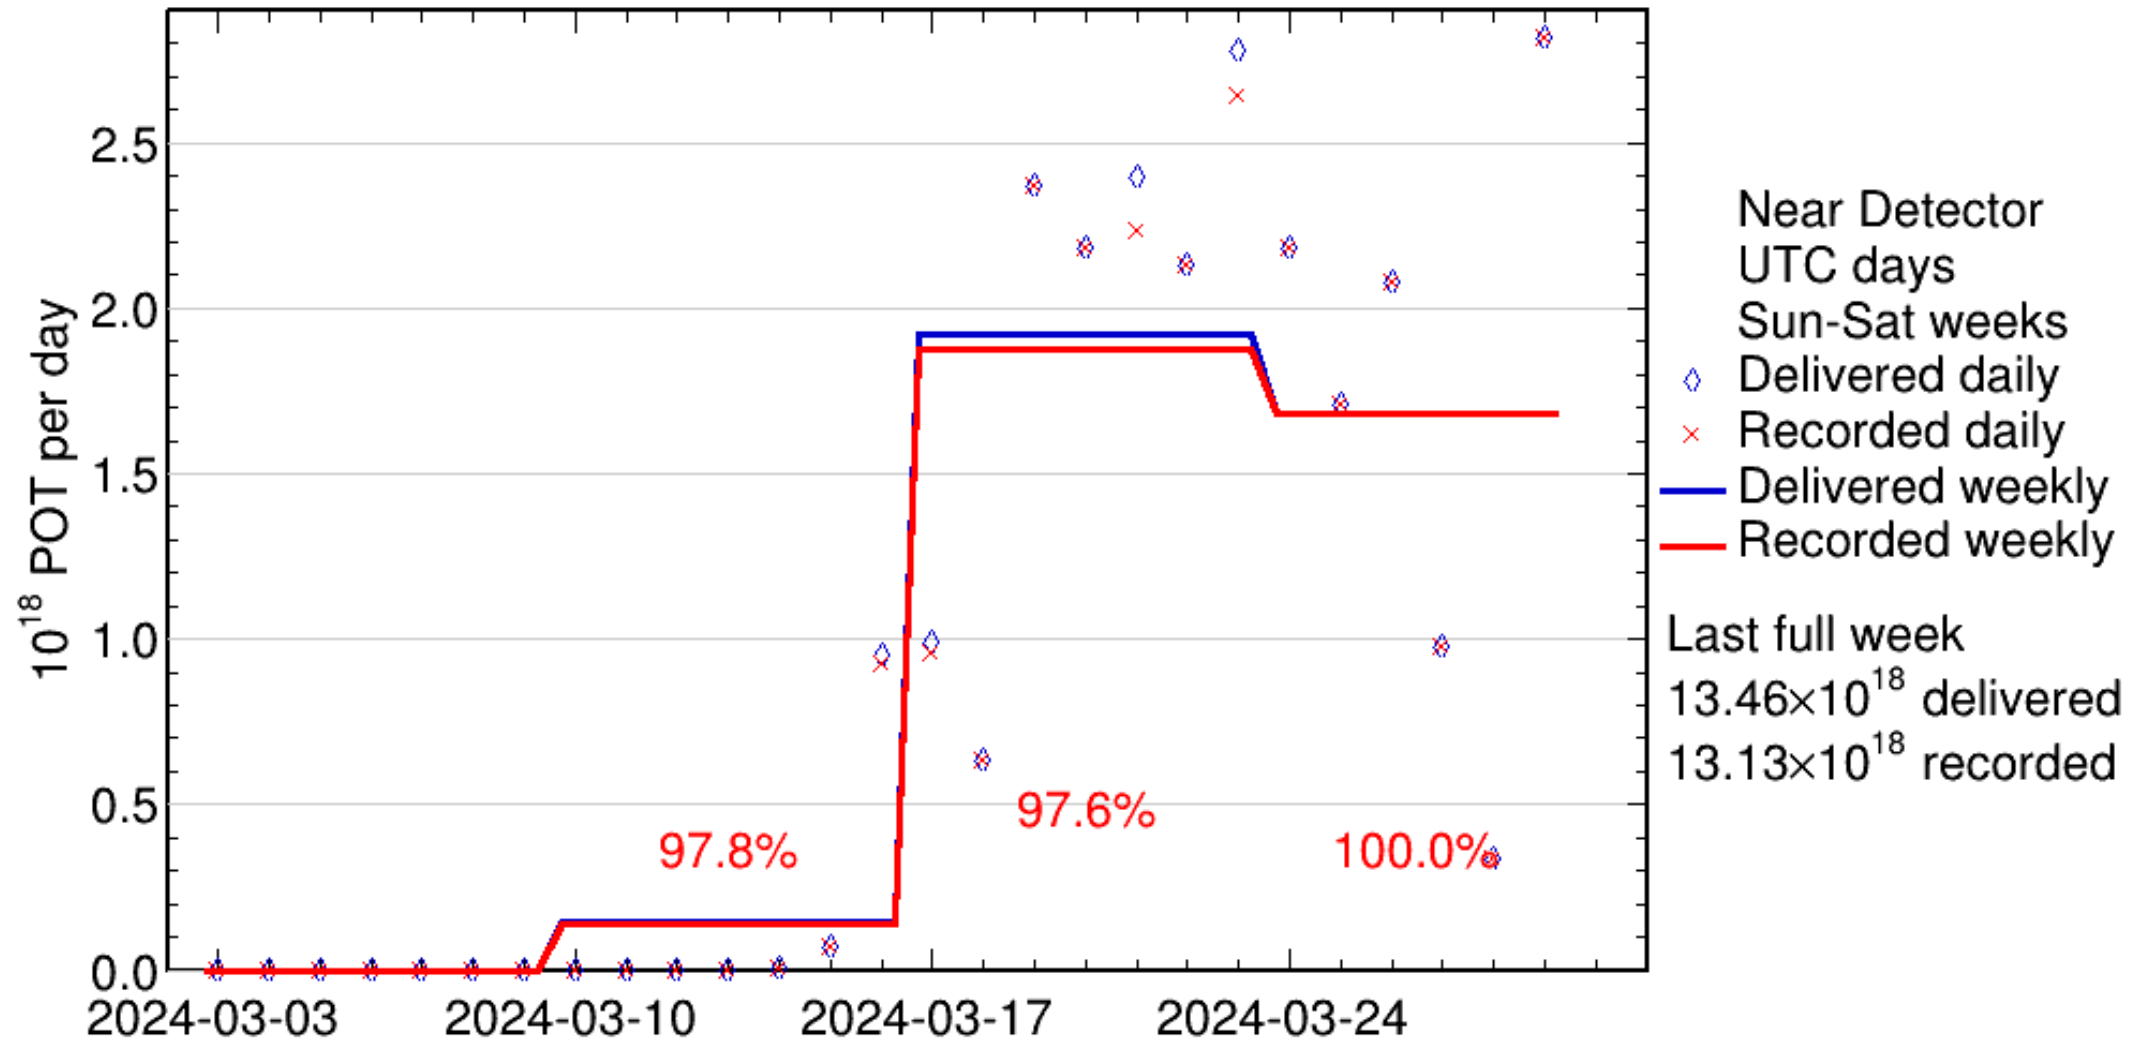

# Operations Highlights:

- **Thanks to all the shifters and experts for keeping things running**
- We're extremely excited for the return of beam.
- Continues migrating the experiment to ceph.
- Very stable running all month for both detectors
- Changing RC, Maria Martinez-Casales will be taking over for me
