FIFE Meeting

Lisa Goodenough

21st June 2024

Agenda

- **FIFE News**

- **Experiment Production/Operations Updates**

- **Open Discussion/AOB**

🔁 **Fermilab**

News

- **samgpvms being retired 6/27**
  - **This list of 'sam' gpvms are being turned off on 6/27**
  - **Replacements are called 'prodgpvm'**
  - **Please act before 6/27 if you need help**

News

- ## Wilson Cluster Decommissioning

  - CSAID is decommissioning the Wilson HPC cluster

  - All Wilson cluster batch processing will be halted on June 28, 2024

  - Users will have to find alternative computing resources to meet their needs

  - The storage systems hosting the NFS project area /work1 and the Lustre filesystem /wclustre will be shut down on July 15, 2024. It is URGENT for users to copy data they wish to keep before the deadline.

  - WHEN WILL THIS OCCUR?

  - June 28, 2024 – batch operations cease

  - July 15, 2024 – storage operations cease

큦 Fermilab

News

- **AL9 Migration**
  - Deadline for converting all computing division machines is June 30, 2024
  - Several experimental gpvms and servers have been migrated
  - All experimental machines have been scheduled for upgrade

  - Please continue to test your workflows in the AL9 environment and if you have any issues open a SNOW ticket
