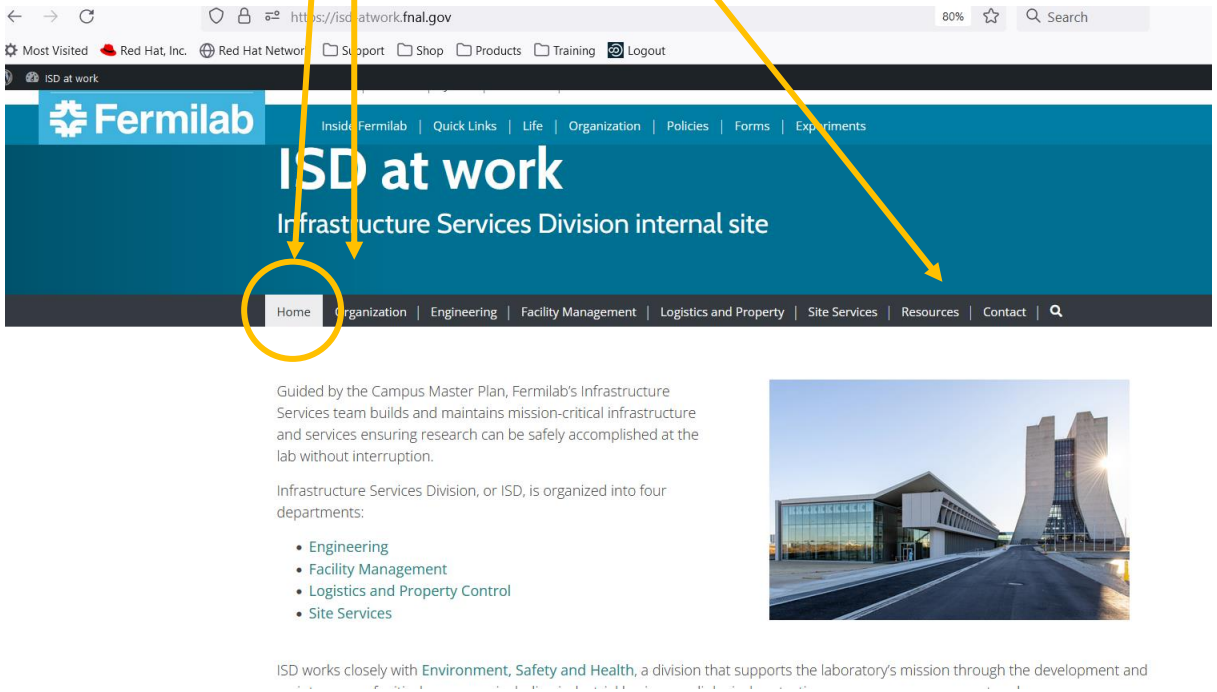
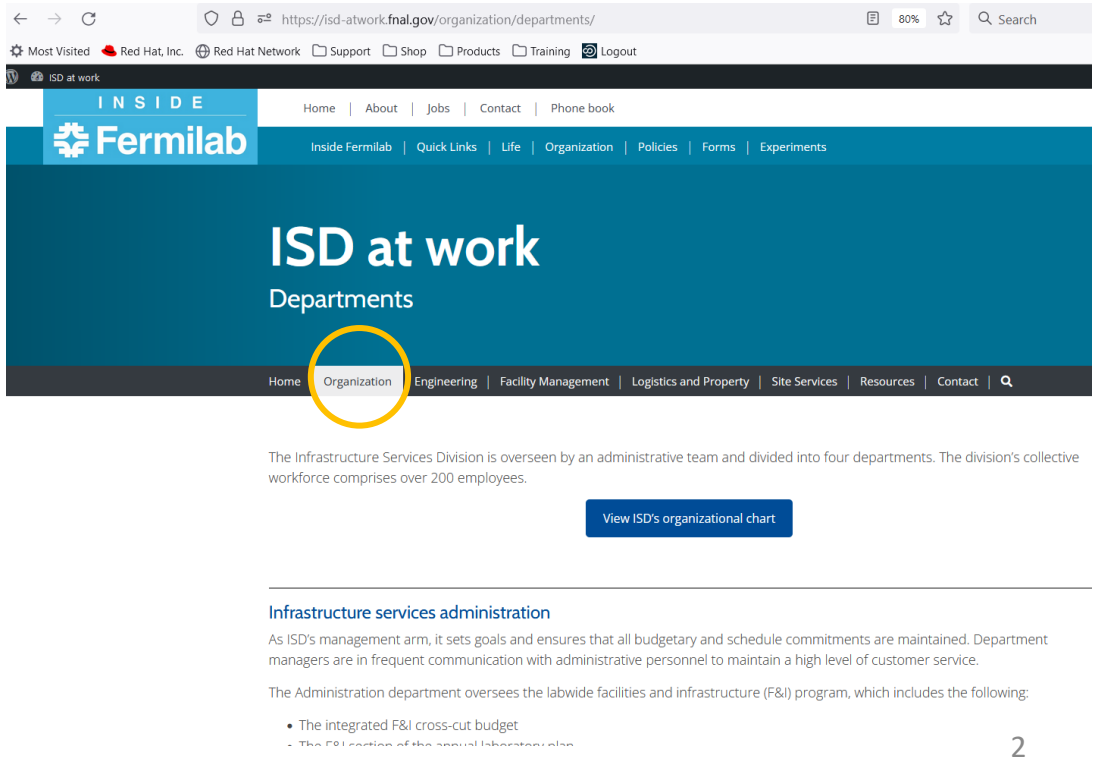
Examples

They follow a “new” design which we are asked to follow

I call those sub-pages





What we are asked to do is to provide content for sub-pages, including their name
Then we'll get help to populate those but then we are on our own.

I am proposing a draft for a SAC webpage, next slides

The Scientist Advisory Council is formed with the charge to engage in open discussion on topics of interest for both short- and long-term plans for the laboratory's research program. The council also discusses issues related to careers and professional development of the Fermilab scientific staff. The council meets regularly with the director. Meetings are typically every other week, members work on topics of interest throughout, often in coordination with other Offices in the Lab.

The council's members are among the scientific staff with terms of two years; half of the group rotates out each year. At the beginning of September each year, the laboratory director solicits nominations via the "all-scientists" distribution list. The demographics being sought will be announced (i.e. number from each organizational unit). Self-nominations are accepted. Following the open nomination period, new council members are selected by the current council in consultation with the director. New terms begin October 1.

(1) **Mailing lists (drop down and a subpage)**

SAC communicate to scientists through the following mailing lists:
fermi_scientists fermi_scientists@fnal.gov
all_ra all_ra@fnal.gov
scientist_addendum scientist_addendum@listserv.fnal.gov
SCIENTIST-EMERITI SCIENTIST-EMERITI@listserv.fnal.gov

Please make sure you are part of at least one of those if you'd like to receive messages from SAC:
https://listserv.fnal.gov/users.asp
https://listserv.fnal.gov/

Typically, this will be taken care of without your explicit involvement but in rare cases the procedure will fail.
You could explicitly request to be included through listserv or listserv email (above).
You could also opt out of any given mail list membership.
