

# Updates

- NP02 was closed. Some last moment changes that we need to implement in the geometry:
  - PMTs has been moved slightly -> PMT-Field cage distance of ~74cm.
  - PMTs in the beam plug also moved 1 squared towards the membrane.
  - Ground grid mesh in front of vertical PMTs.
- NP04 updates:
  - SPE templates are in place (Maritza).
  - PR to activate the deconvolution per channel is going (Viktor)
