# Publications plan

- We aim to submit the NP04 II detector paper in Fall 2025
- System-specific papers expected before, to be referenced by the main one (PD, IOL, monitoring systems, CE, DAQ ....)
- APA, HV, cryo: modifications to be included in the main paper
- Performance of subsystems and data performance indicators expected (DRA group, Calibration group, analysts)
- Plan: form an NP04 II editorial group with one main editor/contact from each system to coordinate and deliver the plan
