

2x2 Demonstrator Operations Status

Luis Zazueta
PMG Meeting
February 6, 2025

PMG Meeting - February 6, 2025

- The cryostat is currently empty.
- Neutrino beam data is still the main focus of the 2x2.
 - We hope to take NuMI data in FY26.
- We heard proposals from the consortium for “beam-off” runs that could be done with the 2x2.
 - Tentatively happening around the fall this year. Currently discussing their feasibility.
