

	HL-LHC	ILC500	ILC1000	ILC1000-up	CLIC1400	CLIC3000	VLHC
$\Delta g_{hhh}/g_{hhh}$	50%	88%	25%	16%	28/21%	16/10%	?

Table 1-21. *Expected per-experiment precision of the triple-Higgs boson coupling. ILC1000-up is the luminosity upgrade with 2500 fb^{-1} at 1000 GeV. The two numbers for each CLIC energy are without/with 80% electron beam polarization.*
