OSG All Hands Meeting 2014

Thursday, 10 April 2014

Federated Storage Workshop - Kavli (10:30 - 18:00)

-Conveners: Andrew Hanushevsky

time	[id] title	presenter
10:30	[20] Introduction	Mr HANUSHEVSKY, Andrew
10:35	[21] ALICE Federated Status and Plans	Mr COSTIN, Grigoras
11:05	[22] ATLAS Status and Plans	YANG, Wei
11:35	[23] CMS Status And Plans	BLOOM, Ken
12:05	Lunch	
13:00	[24] Federating Australian HEP Research Storage Using XRootD	CROSBY, Sean
13:20	[25] UK Federation Plans and Initiatives	BHIMJI, Wahid
13:40	[26] US Tier 1 practical experience, what's missing, and ideas on future evolution	ITO, Hironori
14:00	[27] Quantitative storage analysis: 7 things I always wanted to know about storage and now dared to ask the logs	DUELLMANN, Dirk
14:20	[28] Monitoring and sharing Network resources	Dr VUKOTIC, Ilija
14:40	[29] Dashboards for monitoring of ATLAS and CMS xrootd federations (Part 1)	BECHE, Alexandre
15:10	Afternoon Break	
15:30	[30] Integration of the XRootD traffic in the WLCG monitoring infrastructure (Part 2)	BECHE, Alexandre
16:00	[31] CMS WAN I/O Optimization and CPU Efficiency Under Various Scenarios	GIRONE, Maria
16:30	[32] Transcending the AAA data-access patterns	TADEL, Matevz
17:00	[33] XrootD Scale Testing for AAA	VUOSALO, Carl

Friday, 11 April 2014

Federated Storage Workshop - Kavli (09:00 - 12:30)

  -Conveners: Andrew Hanushevsky

time	[id] title	presenter
09:00	[34] Use of the federation via PANDA, actual experiences, and future plans	Dr DE, Kaushik
09:30	[35] Enabling HTTP/webDAV in XRootD Federations	Dr FURANO, Fabrizio
10:00	[36] New XRootD Client Plugins	JANYST, Lukasz
10:30	Morning Break	
11:00	[37] Clustered proxy access, the good and the bad	ITO, Hironori
11:20	[38] Striking gold with your XRootd caching proxy	TADEL, Matevz
11:50	[39] Building and accessing HTTP/webDAV Storage Federations	Dr FURANO, Fabrizio
12:20	[40] Close out	Mr HANUSHEVSKY, Andrew
