

# Survey of Target Facility Landscape: Neutrino Beam Facilities

*Tuesday, 20 May 2014 09:30 (45 minutes)*

An overview is given of the status and plans for the three currently operating neutrino beam facilities (T2K at JPARC, NUMI and BNB at FNAL). Several proposed facilities (LBNE, CENF, NUSTORM, LBNO, ESSnuSB) are also described.

## Summary

An overview is given of the status and plans for the three currently operating neutrino beam facilities (T2K at JPARC, NUMI and BNB at FNAL). Several proposed facilities (LBNE, CENF, NUSTORM, LBNO, ESSnuSB) are also described.
