

LoopFest XIII

Thursday, 19 June 2014

Session VII - Namm Hall (13:40 - 15:40)

-Conveners: Thomas Becher

time	[id] title	presenter
13:40	[54] RG-improved fully differential predictions for top-pair production at hadron colliders	BROGGIO, Alessandro
14:00	[55] Jet broadening in effective field theory	BELL, Guido
14:20	[56] Resummed jet bin predictions	LIU, Xiaohui
14:40	[57] Multi-Differential Jet Cross-Sections	NEILL, Duff
15:00	[63] Exact Amplitude-Based Resummation Confronts Experiment: Present and Future	WARD, Bennie
15:20	[58] News from jet substructure: soft drop	MARZANI, Simone
