Camille,

Please make arrangements for the Niobium Procurement Readiness Review on the morning of Friday May 16th. Marc Ross will be responsible for sending out the invitation to the committee, which consists of himself, Barry Miller, Joel Pearman, Bob Cibic, and Rich Stanek. No others are required including those on Lori Plummer's LCLS-II Project list.

After Barry's review today, I will send you the final charge letter.

Thanks,
Greg
