

Workshop on Radiation Effects in Superconducting Magnet Materials 2015 (RESMM'15)

Wednesday, 13 May 2015

Session C: Benchmark Experiments - Conference Room 1221 A/B (09:00 - 10:30)

time	[id] title	presenter
09:00	[1] Measurement of the damage rate of copper irradiated with 125 MeV protons at 12 K and comparison with calculated result with the PHITS code	Dr IWAMOTO, Yosuke
09:45	[10] Recent neutron irradiation experiments on HTS coated conductors and Nb ₃ Sn wires	Dr EISTERER, Michael
