

NuFact15 : XVII International Workshop on Neutrino Factories and Future Neutrino Facilities

Contribution ID: 134

Type: **not specified**

Prospects for reducing beam flux uncertainties with hadron production experiments over the next 10 years

Thursday, 13 August 2015 12:00 (30 minutes)

Presenter: BRAVAR, Alessandro (University of Geneva)

Session Classification: joint WG1-WG2-WG3 session

Track Classification: Working group 3: Accelerator Physics
