

NuInt12 : Eighth International Workshop on Neutrino-Nucleus Interactions in the Few-GeV Region

Tuesday, September 9, 2014 - Sunday, September 14, 2014

Scientific Program

Summary of NuInt11 and goals of NuInt12

Electron scattering and Meson exchange currents

CC and NC quasi-elastic scattering

Pion production and other inelastic processes

**Deep and shallow inelastic scattering, quark
hadron duality.**

Systematic effects on CP violation measurements.

**Confronting theory and experiments, event
simulators.**

Very low energy neutrino interactions.

Future experiments.

Path forward and future prospects.

Happy hour with posters
