

NuInt12 : Eighth International Workshop on Neutrino-Nucleus Interactions in the Few-GeV Region

Wednesday, September 10, 2014

Very low neutrino interactions (1:30 PM - 6:00 PM)

time	[id] title	presenter
1:30 PM	[03] Neutrino nucleosynthesis process in core-collapsed supernovae and neutrino oscillations	Prof. KAJINO, Taka
2:00 PM	[04] Beta-beam neutrinos and neutrino-nucleus interactions	Dr JACHOWICZ, Natalie
2:30 PM	[05] Neutrino-nucleus reactions based on recent structure studies	Prof. SUZUKI, Toshio
3:00 PM	[06] Neutrino oscillations and nucleosynthesis in supernovae and GRB	MALKUS, Annelise
3:30 PM	Coffee break	
4:00 PM	[07] Helium and lead observatory of supernovae neutrinos	Prof. VIRTUE, Clarence
4:30 PM	[08] Possibilities for direct nu-Argon cross section measurements in the low energy region	Prof. CAVANNA, Flavio
5:00 PM	[09] Coherent elastic neutrino scattering	Dr JONGHEE, Yoo
5:30 PM	[10] Discussion	

Thursday, September 11, 2014

Very low neutrino interactions (9:00 AM - 9:20 AM)

time	[id] title	presenter
9:00 AM	[12] Recent experimental developments on coherent neutrino-nucleus interactions and related aspects	Mr FERNANDEZ MORONI, Guillermo
