

# NuInt12 : Eighth International Workshop on Neutrino-Nucleus Interactions in the Few-GeV Region

## Wednesday, 10 September 2014

### Very low neutrino interactions (13:30 - 18:00)

time	[id] title	presenter
13:30	[93] Neutrino nucleosynthesis process in core-collapsed supernovae and neutrino oscillations	Prof. KAJINO, Taka
14:00	[94] Beta-beam neutrinos and neutrino-nucleus interactions	Dr JACHOWICZ, Natalie
14:30	[95] Neutrino-nucleus reactions based on recent structure studies	Prof. SUZUKI, Toshio
15:00	[96] Neutrino oscillations and nucleosynthesis in supernovae and GRB	MALKUS, Annelise
15:30	Coffee break	
16:00	[97] Helium and lead observatory of supernovae neutrinos	Prof. VIRTUE, Clarence
16:30	[98] Possibilities for direct nu-Argon cross section measurements in the low energy region	Prof. CAVANNA, Flavio
17:00	[99] Coherent elastic neutrino scattering	Dr JONGHEE, Yoo
17:30	[100] Discussion	

# Thursday, 11 September 2014

## Very low neutrino interactions (09:00 - 09:20)

time	[id] title	presenter
09:00	[92] Recent experimental developments on coherent neutrino-nucleus interactions and related aspects	Mr FERNANDEZ MORONI, Guillermo
