

Defining the early Physics Program of 10 ktons (Chairperson-Agnieszka Zalewska)

Thursday, 22 January 2015 10:45 (1h 30m)

- o Physics program of the 10kton first module(s) underground by 2021
- o Need to cover
 - Oscillation physics (Silvia Pascoli)
 - Supernovae (Kate Scholberg)
 - Proton Decay (Vitaly Kudryavtsev)
- o What are the outstanding Questions in each area
- o What are the goals and priorities and issues associated with each

Presenters: SCHOLBERG, Kate (Duke University); Prof. PASCOLI, Silvia (University of Durham)
