

Mini-Review of Accelerator Test Facilities Program

Purpose of and Charge to the Review

Purpose

The purpose of this mini-review is to outline the full scope of activities that fall within the Accelerator Test Facilities Program (ATFP), examine resource needs and gaps, and discuss priorities and plans for the present and next fiscal years.

The review is sponsored by Fermilab's Chief Operating Officer and is intended to be constructive.

Charge

Please address the following topics in a short report to be submitted in draft form to the Fermilab COO by February 10, 2015.

1. Comment on the budget and cost estimates presented for the primary activities. Do they seem fair and reasonable?
2. Suggest relative priorities and/or trade-offs within the ATFP, taking into account the cross-cutting nature of the facilities and operational activities.
3. Advise on strategies for supporting the program including considerations for engaging DOE.
