## The Virginia Tech Interdisciplinary Graduate Education Program

*Tuesday, 10 March 2015 11:24 (24 minutes)*

The Virginia Tech Sustainable Nanotechnology Interdisciplinary Graduate Education Program (SuN-IGEP) is a cross-university effort to promote interdisciplinary research in the general area of Sustainable Nanotechnology. This presentation will discuss the successes and challenges of this program, which provides financial support for a number of Ph.D. students with the goal to support development of expertise in sustainable nanotechnology. This presentation will discuss the central educational and research tenets of the SuN-IGEP effort

**Primary author:** VIKESLAND, Peter (Virginia Tech)

**Co-author:** VANCE, Nina (Virginia Tech)

**Presenter:** VIKESLAND, Peter (Virginia Tech)

**Session Classification:** 3C Educational & curriculum in nanotechnology

**Track Classification:** Parallel session 3C: Educational & curriculum in nanotechnology
