3B Ecotoxicology, effects on ecosystem services & ecological risks - Breakout 2 (11:00 - 13:00)

time	[id] title	presenter
11:00	[49] Ecotoxicological effects of multi walled carbon nanotubes	BENAYAHU, Yehuda
11:24	[50] The GUIDEnano strategy for nanomaterial environmental hazard assessment along the life cycle	DIEZ-ORTIZ, Maria
11:48	[51] Phytotoxicity of carbon nanotubes in soybean is associated with disturbances of zinc homeostasis	ZAYTSEVA, Olga
12:12	[3] Accumulation of engineered nanoparticles in plant foods: Nutritional bioaccessibility and dietary exposure risks	WHITE, Jason
12:32	[53] Mechanisms of response to NMs in soil invertebrates – integrating from gene expression to organism effect and AOPs	AMORIM, Monica J. B.
