

Sustainable Nanotechnology Conference 2015

Tuesday, 10 March 2015

4B Toxicology and human health risks - Breakout 2 (14:40 - 16:40)

time	[id] title	presenter
14:40	[64] NanoSAR: Structure Activity Model for the Toxicity of Nanoparticles	OKSEL, Ceyda
15:04	[65] Contribution to nanomaterials safety assessment: the need of integrating in vitro, in vivo and in silico strategies	SILVA, Maria Joao
15:28	[66] Development of a robust method for measuring engineered nanomaterial toxicity and uptake using <i>Caenorhabditis elegans</i>	PETERSEN, Elijah
15:52	[67] Design and Development of Surface Modification and Synthesis Strategies to Reduce Toxicity of Nanoparticles	KELEŞTEMUR, Seda
16:16	[68] Development of an initial Risk Assessment strategy within the GUIDEnano project	WIJNHOFEN, Susan
