4B Toxicology and human health risks - Breakout 2 (2:40 PM - 4:40 PM)

time	[id]	title	presenter
2:40 P	[14]	NanoSAR: Structure Activity Model for the Toxicity of Nanoparticles	OKSEL, Ceyda
3:04 P	[15]	Contribution to nanomaterials safety assessment: the need of integrating in vitro, in vivo and in silico strategies	SILVA, Maria Joao
3:28 P	[16]	Development of a robust method for measuring engineered nanomaterial toxicity and uptake using <i>Caenorhabditis elegans</i>	PETERSEN, Elijah
3:52 P	[17]	Design and Development of Surface Modification and Synthesis Strategies to Reduce Toxicity of Nanoparticles	KELEŞTEMUR, Seda
4:16 P	[18]	Development of an initial Risk Assessment strategy within the GUIDEnano project	WIJNHOFEN, Susan
