

# Sustainable Nanotechnology Conference 2015

## Tuesday, 10 March 2015

### 4C Environmental Release, Fate and Exposure - Breakout 3 (14:40 - 16:40)

time	[id] title	presenter
14:40	[69] Evaluation of titanium dioxide nanoparticle fate and heteroaggregation in natural surface waters	SLOMBERG, Danielle
15:04	[70] Kinetics of Nanoparticles Release from Nanocomposites Exposed to Environmental Stresses	SUNG, Li-Piin
15:28	[71] Environmental fate of nanopesticides and exposure assessment	KAH, Melanie
15:52	[72] Insights from a spatially and temporally resolved nanoparticle fate model	LOWRY, Gregory
16:16	[73] Thermal decomposition of nano-enabled products at their end of life and EHS implications	DEMOKRITOU, Phil
