

Sustainable Nanotechnology Conference 2015

Wednesday, 11 March 2015

6C Environmental exposure, release & fate - Breakout 3 (16:00 - 18:00)

time	[id] title	presenter
16:00	[98] Single particle ICPMS based methods for tracking environmental leaching of nanoparticles from consumer products	VON DER KAMMER, Frank
16:24	[99] Novel method to address the environmental impact of nanomaterials in the use phase: the SUN approach	SCIFO, Lorette
16:48	[0] Interactive spICP-MS data treatment using Nanocount	Mr CORNELIS, Geert
17:12	[100] Nanotechnology : the missing piece of the life puzzle	RIOS, Gilbert M.
17:36	[101] Speciation and mechanisms of nanomaterial release from nano-enabled products during their life cycle: Self-cleaning cement as building material case study	BOSSA, Nathan
